In 4th grade, knowing your multiplication facts **really well is super important!** Multiplication facts are the building blocks for doing more advanced math like multi digit multiplication and division. Practice at home with flashcards and fun games to become a math superstar!

Also, reading smoothly and understanding what you read is also **super important!** In 4th grade, you'll make the switch from learning to read to reading to learn! Let's team up to make this year a success by practicing math and reading together!

Summer math and reading will be due when you return to school for 4<sup>th</sup> grade. We can't wait to see you then! We are excited to learn and grow with you,

~Mrs. Edwards & Mrs. Fotopoulos~

### Before Entering 4th Grade it is Important to Review:

- ★ Multiplication and Division Facts
- ★ Adding and subtracting with regrouping!

### Educational Websites for Extra Practice :

- ★ [roomrecess.com](http://roomrecess.com) (Math and ELA games)
- ★ [mathplayground.com](http://mathplayground.com)
- ★ [multiplicationgames.com](http://multiplicationgames.com)
- ★ ST Math (through clever)
- ★ Prodigy Math
