NOTES:

Data Dive:

- Review iReady data - trending in the right direction; 3rd grade made substantial group out of the red in Math & ELA; (red means one grade level below); Vocabulary seems to be our biggest level of need, comprehension is not far behind

QIP:

Fishbone Diagram:

- Needs assessments surveys combined
 - Programs for vocabulary & comprehension development
 - School culture - two-way communication (how do we support our kids so that they share with their parents? Talk moves for home?)

School Strategic Objectives and Initiatives:

- Parent and teacher survey on communication methods (DoJo, Talk Points, Remind)
- Attendance - how can we improve it? - Is there a breakdown
- Letterland training for Paraprofessionals

Agreed that we should move forward with the focus of the School Strategic Objectives and Initiatives.

To Do:

Draft the action steps of the QIP
